The Bachelor's program in "International Finance and Development Institutions" provides a comprehensive understanding of the structure and principles of the international financial system. Graduates, equipped with a wide range of knowledge, are in high demand, easily adapt to modern conditions, are ready for professional work, and can pursue careers in the corporate sector (banks, funds, Russian and foreign companies), governmental structures, and provide consulting on the use of financial products and services in the international market.

Our graduates can continue their studies to obtain a "Master's" qualification through highly prestigious master's programs offered by the Department of "Finance": "Public and Municipal Finance in the Digital Economy," "Financial Innovations in Economics and Business," and "Insurance Business."

The "International Finance" program

The "International Finance and Development Institutions" program aims to prepare specialists by incorporating the latest scientific advancements in the field of international activities of companies, banks, and exchanges, as well as government institutions. It harmoniously combines the best traditions of Russian higher education with the new requirements and challenges characteristic of modern trends in the development of international monetary, credit, and financial relations.

Upon graduation, the qualification awarded is: "Bachelor" in the field of "Economics" with a specialization in "International Finance and Development Institutions"

Unique Advantages of the "International Finance and Development Institutions" Program

In the preparation of students, new teaching technologies are utilized in collaboration with future employers. These include team work, group projects, simulation technologies, collaborative creative work, lectures, press conferences, meetings with experts, master classes from employers and business representatives.

The "International Finance and Development Institutions" program is taught in English. Students have the opportunity to additionally study Korean and Chinese languages.
