Rostov State University of Economics (RINH),

Faculty of Economics and Finance

Department of Banking

**announces the enrollment of students in the bachelor's degree program
"Banking and money circulation"**

DEAR FRIEND!

 *Teachers of the Rostov State Economic University (RINH) are glad to welcome you. Our university is one of the oldest educational institutions in the South of Russia, it was founded in 1931. The department of "Banking" is one of the most authoritative departments of this university, leading the history from the moment of its foundation.*

 *You know, of course, that we are all closely connected with the banking system.*

 *If you are interested in what money is, where it came from, how business and people attract money, then your right choice is the Banking and Money Circulation profile.*

Choosing a profession is the basis of the future for any person. The right choice is a field of activity that will remain stable in any conditions.

 **This certainly applies to money and banking!**

Only after receiving an education on the profile "Banking and money circulation" at the Russian State Economic University (RINH) you will be able to:

- transform credit from debt into a source of development;
- find out why banking is the most profitable business, and how banks "make money";
- help the family business increase profits and/or learn how to raise money for the implementation of their projects;
- learn how to work in the digital economy;
- understand what blockchain and cryptocurrencies are, whether biometrics is dangerous, and whether plastic cards will exist tomorrow.

What will you be taught on our profile?

- ensure the movement of cash and non-cash money;
- conduct cash and bill transactions;

- understand what financial services legal entities and individuals need and how to conduct financial relationships with them;
- assist in the selection and provision of loans;
- buy and sell securities;
- engage in analytical activities, planning, forecasting;
- provide quality service and advice to clients on any credit and financial issues.

What else can you do besides study?

- ✓ participate in the annual competitions of the best banks for nominal scholarships;
- ✓ take internships in banking organizations in Rostov-on-Don and the region;
- ✓ participate in exciting master classes and trainings from top managers of commercial banks, leasing companies and guarantee funds;
- ✓ engage in scientific research within the framework of the student scientific club "DOKa";
- ✓ attend sports and other sections.

Where can you find a job after graduating from the profile "Banking and money circulation":

- to commercial banks;
- to non-bank credit institutions;
- to non-credit financial organizations (insurance, leasing, microfinance and other organizations);
- in various companies and enterprises in the service of the financial director as a financial analyst and negotiator with banking organizations;
- to financial supervisory and regulatory authorities, including the Central Bank of your country.

The profession of a banking specialist, who is able to make money work anywhere as efficiently as possible, is always prestigious.

When mastering this profession, our students study not only the classical methods and principles of banking organization, but also modern advanced technologies that are used by banks in customer service.
